A9.4 states that an SES submitted and approved one month early will receive 20 bonus points. The deadline for the SES shown on the rules and deadlines page is 10/31/15, which is about two months away. I tried to find the 2016 SES on the tech support and references page, but only found the 2015 SES with a note stating "for reference only". Where can I find the 2016 SES so that I can submit it one month before the 10/31/15 deadline?

Best,

Phil

08/31/2015 5:34 am

Phil,

We are in the final phases of testing the 2016 SES. It should be posted by the end of the week. If you don't see something, please feel free to re-open this ticket, or start a new one. For guidance, the 2016 SES is quite similar to the 2015 SES, so you may use that document to begin your calculations and input. Then, when the final 2016 document is posted, you can transfer over your numbers and images.
